How to install CrimeBlocker to protect your computers

Open the Installer

Start from the folder where you downloaded the installer files:

- cbsetup.exe
- cbcodes.txt

If you don't have the files yet, see our email and our download guide: **Download CrimeBlocker Guide.pdf**

Both **cbsetup.exe** and **cbcodes.txt** should be in the same folder, either on your computer or in a network folder.

Double-click **cbsetup.exe** (or **cbsetup**) to launch it. You can do that from any folder.

This guide leaves out some steps where the choice is easy such as Next.

Click More info

Microsoft wants to make sure you are carefully about installing programs.
